

	Name: Monika Karacsonyova
	Phone: 00421 259 343 462
	Email: karacsonyova@vuvh.sk

Organisation	Water Research Institute, Slovakia
Function within organization	Research Worker
Role in DINAMICS	Cooperation on WP1: Industrial Requirements
Expertise	Chemistry
Career/ Experience	Assessment of drinking water quality distributed by public water supply systems and proposal of measures for quality assuring. Development/design of technological stages for treatment of water intended for drinking purposes and their implementation with focus on current problems of the water management.
Languages	English
Personal stuff (optional)	/

PUBLICATION LIST

Munka, K., **Karacsonyova, M.**, Gajdos, L., Buchlerova, E. (2008) Stability of Chlorine Dioxide and Formation of Chlorites in Water in Relation to the Chlorine Dioxide Production Process. In: *IWA World Water Congress and Exhibition. Abstracts*. Vienna, Austria, 7-12 September. London: IWA, 2008. p. 223-224.

Munka, K., **Karacsonyova, M.**, Gajdos, L., Buchlerova, E. (2008) Stability of Chlorine Dioxide and Formation of Chlorites in Water in Relation to the Chlorine Dioxide Production

Process. In: *IWA World Water Congress and Exhibition. Proceedings*. Vienna, Austria, 7-12 September [CD-ROM]. London: IWA, 2008. 7 p.

Gajdos, L., Munka, K., **Karacsonyova, M.** and Derco, J. (2007) Application of chlorine dioxide as disinfection agent for potable water treatment. *Chem. listy* **101**(6), 480-485.

Kris, J., Munka, K., Buchlerova, E., **Karacsonyova, M.** and Gajdos, L. (2005) Chlorine dioxide disinfection by-products in the Nová Bystrica-Čadca-Žilina long distance water supply system. In: *Proc. of the IWA - ASPIRE Conference & Exhibition. Abstracts*. Singapore, 10-15 July.
